

ARIBA NETWORK REGISTRATION GUIDE

Introduction

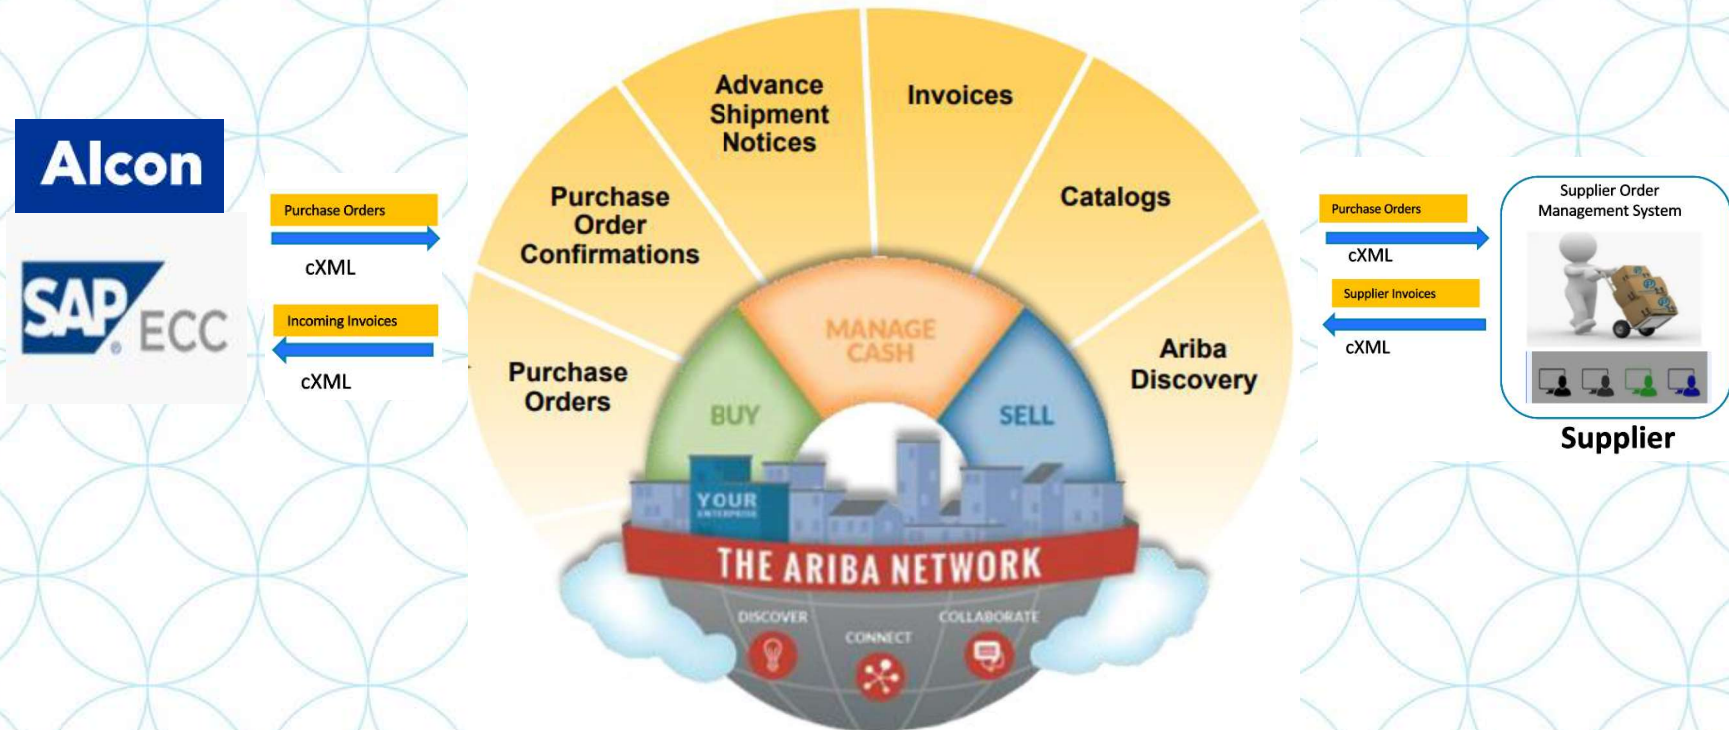

Dear Valued Alcon Supplier,

Alcon is pleased to announce that we have entered into a long-term agreement with SAP Ariba to migrate our procure-to-pay processes to their cloud-based solution. Conducting business on the Ariba Network will be required, and all transactional documents between our companies will be exchanged through this platform. SAP Ariba brings our suppliers many benefits such as real-time PO delivery, use of online catalogs, invoice automation and payments in a timely manner.

Suppliers new to the Ariba Network generally start transacting on the Ariba Network for free. However, based on the volume of transactions you have on the Ariba Network (across all customer relationships) you may be eligible for fees.

The Registration Guide shows new suppliers how to register on the Ariba Network and existing users how to incorporate Alcon in their already existing accounts. This guide also provides information steps to create an Alcon supplier profile.
